Company Profile & Product Photographs

Selecting the right product for your facility is however only the first step. Spa Vision's strength lies in building and developing long term relationships with all of its spa partners to deliver the very highest standards of service and excellence. We achieve this by offering extensive training and on-going support.

Set near the historic spa town of Bath in a beautiful contemporary 2000 sq ft Cotswold stone building, Spa Vision has created a state-of-the-art training facility to inspire and educate therapists to the highest industry standards. Our modern and spacious training rooms provide the ideal environment in which to learn about spa treatments, massage and hydrotherapy. Spa Vision is taking training to the next level.

Spa Vision's experienced team of educators provides its spa partners with the finest ongoing training and support available with uncompromising service delivery. Spa Vision believes its products will create the competitive advantage; however understand
